

## Chemicals for opening your Chlorine/Bromine/Frog Pool

Always balance the pool chemistry before adding your  
start-up chemicals

1. Add Scale & Stain Control

1 bottle/ 20,000 gallons

Wait 4 hours

2. Add Shock: Choose one

Refresh Shock 1lb/ 10,000 gallons

Liquid Chlorine 1 gal/ 12,000 gallons

Oxy Out 1lb/ 10,000 gallons (if you have a good chlorine level)

Wait 24 hours

3. Add an Algaecide: Choose One

Formula 500 1 bottle/ 10,000 gallons

Formula 6000 1 bottle/ 20,000 gallons

SeaKlear 90 day copper based algaecide 1 bottle/ 20,000 gallons (recommended with frog system)

### Pool Magic Spring & Fall:

- Add when using a mesh cover, it will help destroy the organics from over the winter
- Add if your phosphate levels are typically high during the season
